

ASHA Statement

June 4, 2020

Our nation is experiencing heart wrenching pain. We now must look deep inside each and every one of us for answers and to determinedly follow a path to overcome the senseless racism and prejudice that once again has become so frighteningly apparent in America following the tragic death of George Floyd in Minneapolis.

The American Seniors Housing Association fully supports all the peaceful protests and other platforms and voices that are forcing America to recognize and respond to the outcry for social justice and racial equality. We must channel the outrage by relentlessly pursuing meaningful change in police department reforms and the criminal justice system.
